

R290 & R600 | Disposable Refrigerants

Recharge in-the-field faster & easier.

Recharge units in the field with ease using the Ambro Controls R290 or R600a disposable refrigerants. Lightweight portable cylinders containing high purity hydrocarbon refrigerant; ideal for numerous low to medium temperature applications including domestic and light commercial refrigeration as well as air conditioning. Use of disposable refrigerants is a more friendly option with lower environmental impact.

FEATURES

- > Recharge units in the field easily
- > Ultra-portable, lightweight and handy
- > Better energy efficiency
- > Made of high purity hydrocarbons
- > Environmentally friendly compared to traditional refrigerants
- > Ideal for low to medium temperature applications in domestic and light commercial refrigeration

Product No. 1811290

Product No. 1811600

AC37 Valve

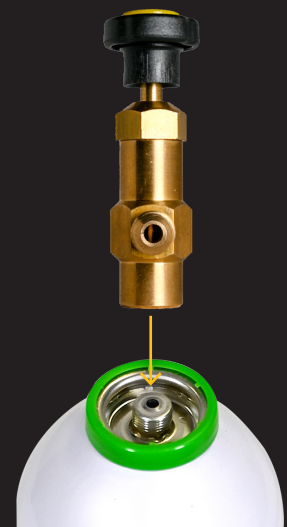

Single stage valve to be used with Ambro Controls disposable R290 or R600 refrigerant.

CONNECTIONS

- > 1/4" SAE Male
- > 7/16"-28 UNEF Female (Connection to cylinder)

EPDM rubber O-ring

Product No. AC37
