

Product No. **1811559**

NITROGEN BLOWOUT GUN

Efficiency and Convenience

The Nitrogen Blow Gun Kit is designed to use dry nitrogen to clear blockages from HVAC condensate drain lines and similar low-pressure piping. By delivering a short, controlled burst of gas through a rubber cone tip, the tool dislodges sludge, algae and other debris without the need to cut or disassemble the drain. The kit includes a high-flow blow gun, flexible hose and universal rubber cone that seals against openings on condensate drainpipes up to 1-1/2" nominal size.

- **APPLICATION: MULTIPURPOSE CLEANING TOOL FOR USE WITH NITROGEN**
- **OUTLET THREAD: 1/4" SAE FLARE**
- **MAX WORKING PRESSURE: 150 PSI**
- **HIGH PRESSURE PORTABLE CYLINDER**
- **FOR USE WITH NITROGEN (CYLINDER SOLD SEPARATELY)**
- **HOSE DIMENSIONS: 1.5M | 4.9FT**
- **CASE DIMENSIONS: 150MM (L) X 50MM (H) X 50MM (W)**

Connects to Ambro Controls Nitrogen Kits (sold separately)
